

Planet Green Team EASY & Effective Norwex Cleaning Tips

Compliments of your Norwex Independent Sales Consultant

- **Laundering your Norwex Cloths:** Wash in the washer; Dry in the dryer. Remember the 3 simple rules: NO FABRIC SOFTENER, NO BLEACH, & NO LINTY LOADS!
- **Color-code your Enviro cloths by job** - green for toilets, red for the bathrooms, grey for kitchen, blue for windows. Clean from the cleanest to dirtiest area.
- **Windows**--wash with damp **Enviro Cloth** and then polish with a dry **Window Cloth**. For hard to reach or larger windows use the **Norwex Mop** with the mop brackets.
- **Window screens**—run a damp **Bathroom Scrub Mitt** or **Dusting Mitt** over the screens—your screens will look like new.
- **High-germ areas**-- use a damp **Enviro Cloth** once per week on high germ areas such as the phone, remote control, light switches, door knobs, computer keyboards & hand rails to cut down on sickness in your home and office.
- **Enhance static charge in Dry Superior Mop Pad**-- use the **Rubber Brush** to clean your **Superior Dry Mop Pad** & **Dusting Mitt** and ramp up the microfiber's static charge for maximum effectiveness.
- **Freshen up your blue Wet Mop Pad**-- use a small squirt of the **Stain Remover** and warm water between laundering. Rinse very well before hanging to dry.
- **Ultra-quick floor cleaning**-- simply spray vinyl, tile, or laminate floor with water from the **Spray Bottle** & follow with the **Wet Mop** for a quick, thorough cleaning.
- **Exfoliate** – wring out your **Body Cloth** more tightly about once a week to gently wash your face—this will gently exfoliate & rejuvenate your skin for a healthy-looking glow. **USE CAUTION on sensitive skin.**
- **Carry a Travel-Size Enviro cloth** in your purse. Use damp to wipe notoriously “germy” areas like public phones & computers, your car steering wheel, restaurant tables, shopping cart handles...
- **Light fixtures and ceiling fans** – wipe with an Envirowand with two-sided sleeve! Hooks to the end of your mop!
- **“Ring around the tub”**-- use the **Bathroom Scrub Mitt** with a little **Cleaning Paste** to clean the “ring around the tub”.
- **Kitchen cupboards** – clean your cupboards inside & out with a damp **Enviro Cloth**
- **Washing walls** – remove fingerprints & grime with a damp **Enviro Cloth** OR wash the entire wall with just water and the **Norwex Mop**. The dry mop pad is ideal for removing dust from walls, the wet pad for washing walls.
- **Oven** – Try the non-toxic **Oven & Grill Cleaner** with a **Spirinett**. Finish the task by removing any residue with a damp **Enviro Cloth**, followed by a dry **Window Cloth**.
- **Mattresses** – spray with the **Norwex Mattress Cleaner** every three - four months - rid your mattress of pet dander, dead skin cells, & dust mite feces.
- **Various tough jobs** – the **Norwex Cleaning Paste** is excellent for cleaning stainless steel, tubs, rust spots and more. Commonly known as “elbow grease in a jar”. Test inconspicuous area if concerned surface may scratch.
- **Dusting under or behind the beasts** –(fridge, stove, washer, dryer) is fast and easy when using the large **dry superior mop** pad first to remove dust bunnies and debris, followed by washing with the wet mop.
- **For stains**, the **Stain Remover** is an excellent stain-buster, as is a concentrated overnight soak in Norwex Ultra Plus Laundry Detergent!
- **If your microfiber doesn't smell as fresh: Deep Clean**, soak overnight in a concentrated solution of Norwex laundry detergent & hot water before laundering. Or may boil in pot of water (on stovetop) for 10 minutes, rinse in cold water & wring to dry (do not boil more than twice a year to avoid wear on cloths).
